Captain W.A. Downton,
2147 Orient Park Dr.,
Ottawa, Ont.,
K1B 4W1.

Dear Captain Downton,

This will acknowledge your letter of Feb. 3 in which you enclosed charts of the Downton genealogy. These are to be listed in our holdings so that other researchers interested in the Downton family may benefit from them.

Unfortunately, we do not have death records for the Exploits region. However, that does not say that none exist. I suggest that you write to the incumbent ministers of the Anglican and United Churches at Twillingate and Grand Falls to check on this point.

Our marriage and baptismal records for the Exploits area go back only to 1842, therefore we could not check on the births of Charles and George Downton. However, we researched what records we have and listed all the Downtons we found. These lists are enclosed.

We are enclosing a xerox copy of a page from "Family Names of the Island of Newfoundland" which was published earlier this year. You will note the listing for Downton. The Edward Downton of Change Islands referred to had a son, John, baptized at Change Islands Aug. 9, 1832. He was christened by Archdeacon Edward Wix of St. Thomas' Church, St. John's, who visited that east coast area. The baptism is recorded in the St. Thomas' Church (Anglican) St. John's.

We have no records to show the Downtons as ship owners or builders and our marriage and baptismal records do not indicate where the Downtons originated in the Old Country. We trust what we have given you here is of some help in your project.

Sincerely,

Don Morris,
Researcher.
