1827 in a court case we find he has a fishery on the Labrador coast at Green Cove, and owned a fishing room there. The schooner was used to carry freight and passengers between Conception Bay and the Labrador. He not only carried his own servants and supplies but would also freight for others, since he was involved in a dispute over an agreement to carry home fish and oil for Mathew and John Mprphy.

1833 In that year he seems to have been in partnership with Dennis Meagher.
